

# SAFe 4.0 Release Train Engineer with RTE Certification

---

## Facilitating business value delivery with Agile Release Trains

In this advanced three-day interactive workshop-style course, you will gain an in-depth understanding of the role and responsibilities of a Release Train Engineer (RTE) in the SAFe enterprise. You will learn how to facilitate and enable end-to-end value delivery through Agile Release Trains (ARTs) and value streams. You will also learn how to build a high-performing ART by becoming a servant leader and coach, and how to plan and execute a Program Increment (PI) planning event, the primary enabler of alignment throughout all levels of a SAFe organization.

## Audience

The following individuals will benefit from this course:

- Release Train Engineers (RTEs)
- Program and Project Managers
- Scrum Masters (SMs)
- Leaders and Managers
- Agile Coaches
- Value Stream Engineers (VSEs)
- SAFe Program Consultants (SPCs)

## Learning Goals

After this course, you should be able to:

- Effectively perform the role of the Release Train Engineer
- Apply Lean-Agile knowledge and tools to execute and release value
- Lead and facilitate program execution
- Create transparency using metrics to initiate and drive positive change
- Coach ARTs and teams in relentless improvement of value delivery
- Build a high performing Agile Release Train by becoming a servant leader and coach

- Continue your learning journey and develop an ART action plan

## Topics Covered

- Learning the RTE role and responsibilities
- Applying SAFe Principles
- Organizing the ART
- Planning a Program Increment
- Executing a Program Increment
- Fostering Relentless Improvement
- Serving the ART
- Continuing your Learning Journey

## Required Pre-requisites:

In order to attend this advanced course, you must have one of the following required certifications:

- SAFe 4 Agilist (SA4)
- SAFe 4 Program Consultant (SPC4)

## Recommended Pre-requisites:

- Launched or participated in at least one Agile Release Train and one Program Increment
- SAFe 4 Scrum Master (SSM)
- SAFe Advanced Scrum Master (SASM)

## Duration

3 days

## What You Get

- Attendee workbook
- Eligibility to take the RTE certification exam, if you participate in all 3 days of class
- RTE attendance certificate upon request

## SAFe® Certification

- SAFe 4 Certified Release Train Engineer

## SAFe® Certification Kit

Attendees who pass the exam will receive:

- A SAFe 4 Certified Release Train Engineer certificate
- One year certified membership as an RTE
- RTE branding kit with the RTE certification mark
- Access to the RTE forums and toolkits as well as professional development material through the Scaled Agile Community site
